

## Humpback Whale Adventure *Dominican Republic*

### *Soul Remembering* *Activating Your Soul Codes* *January 23-30, 2027*

We are in the time of remembrance as we travel upward on the spiral. Things that were once hidden are now being revealed as nothing can hide from the light of truth. What are you knowing deep within your soul that is true for you? When the whales call to you, you are being called back into remembrance and higher ways of being human.

The humpback whales are powerful, yet gentle giants who are expansive record keepers that traverse the Earth through the waters. Their primal sounds sing and call to our soul essence as they remind us who we truly are. These humpback whales are very social and offer close encounters as they feel our energy. Many of us have connections with these whales beyond what the conscious mind knows.

We invite you to join us for a powerful and expansive week in the Dominican Republic on Silver Bank where these magnificent whales play, give birth, rest, make love, and sing. Our all-inclusive trip will be on a live aboard ship where we will moor out in the shallow blue waters and will take smaller boats to be with the whales each day. Come open and curious to see where your inner guidance is awakening you.
